# ABOUT THE ACTIVITY

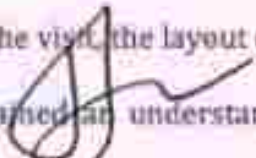

## 1. OBJECTIVE OF ACTIVITY

- To give students firsthand experience of industrial operations, processes, and technologies.
- To bridge the gap between theoretical knowledge learned in classrooms and practical application in real-world scenarios.
- To help students understand industry practices, trends, and standards.
- Learn about different dosage forms and the techniques used in their development.
- Understand the testing procedures for raw materials, in-process materials, and finished products.
- To inspire innovation and research by exposing students to real-world challenges and how industries are addressing them.

## 2. ABOUT THE SESSION:

On 16/03/2024 HSBPVT's, GOI, Faculty of Pharmacy organised the industrial visit at, Vishwachaitanya Ayurvediya Rasashaia Pvt. Baramati, Maharashtra. For these the Second Year B.Pharmacy Students were going to Baramati, The total intake of students was 48 & 04 teachers attended these industrial visits. In that session, students are welcomed by industry professionals and given an overview of the company, its history, products, and market presence. During the visit, students gain firsthand exposure to the various stages of drug manufacturing, including formulation, production, and quality control. They observe the intricate processes on the production line, witnessing how different dosage forms such as tablets, capsules, and injectables are produced and packaged. The visit also emphasizes the importance of regulatory compliance, highlighting the stringent standards set by agencies like the FDA and EMA that ensure product safety and efficacy. During that session, students are familiar with industry standard.

### 3. DETAILS OF THE ACTIVITY

In that industrial visit, the manager gave detailed instructions on safety protocols and guidelines to be followed during the visit. In that session students are really excited to understand company manufacturing process and material handling. Observation of the drug manufacturing processes, including formulation, granulation, tablet compression, and packaging. Insights into the GMP standards that ensure the quality and safety of pharmaceutical products. Tour of the QA, QC, R&D laboratories where raw materials, in-process materials, and finished products are tested. Observation of the packaging process, including labelling, serialization, and tamper-evident packaging. Understanding of how packaging materials are handled and stored. In this industrial visit students experience the handling of a tablet punching machine. Also, gives knowledge about the handling of various machines for manufacturing various dosage forms. Also session was really informative. These industrial visit are ensure that pharmacy students not only observe and learn about pharmaceutical manufacturing and quality control but also actively engage with industry professionals, enhancing their practical knowledge and career readiness.

### 4. BENEFIT IN TERMS OF LEARNING/SKILLS/KNOWLEDGE OBTAINED

These benefits collectively contribute to a well-rounded educational experience, bridging the gap between academic learning and professional practice, and equipping pharmacy students with the knowledge, skills, and connections necessary for successful careers in the pharmaceutical industry. The pharmaceutical industrial visit is an essential component of pharmacy education, providing students with critical insights into the industry's operations, challenges, and innovations. This experience helps students to be better prepared for their future careers in the pharmaceutical field.

# ABOUT THE ACTIVITY

## 1. OBJECTIVE OF ACTIVITY

- To give students firsthand experience of industrial operations, processes, and technologies.
- To bridge the gap between theoretical knowledge learned in classrooms and practical application in real-world scenarios.
- To help students understand industry practices, trends, and standards.
- To provide insights into various career paths available in the industry and the skills required to pursue them.
- To enhance learning through observation and interaction, making complex concepts easier to understand.
- To inspire innovation and research by exposing students to real-world challenges and how industries are addressing them.

## 2. ABOUT THE SESSION:

On 05/02/2024 HSBPVT's, GOI, Faculty of Pharmacy organized the industrial visit at Bora Pharmaceutical Pvt.Ltd Ahmednagar, Maharashtra. For these the Third Year B.Pharmacy Students were going to Ahmednagar, The total intake of students was 124 & 05 teachers attended these industrial visits. In that session, students are welcomed by industry professionals and given an overview of the company, its history, products, and market presence. The primary goal of industrial visits is to bridge the gap between academic learning and practical industry applications. Students gain firsthand experience in pharmaceutical manufacturing processes, quality control, and research and development activities. During that industrial visit, students gain familiarity with industry standards, regulatory requirements, and good manufacturing practices.

### 3. DETAILS OF THE ACTIVITY

In that industrial visit, the manager gave detailed instructions on safety protocols and guidelines to be followed during the visit. Observation of the drug manufacturing processes, including formulation, granulation, tablet compression, and packaging. Insights into the GMP standards that ensure the quality and safety of pharmaceutical products. Tour of the QC laboratories where raw materials, in-process materials, and finished products are tested. Observation of the packaging process, including labelling, serialization, and tamper-evident packaging. Understanding of how packaging materials are handled and stored. In this industrial visit students experience the handling of a tablet punching machine. Also, gives knowledge about the handling of various machines for manufacturing various dosage forms. Also session was really informative.

### 4. BENEFIT IN TERMS OF LEARNING/SKILLS/KNOWLEDGE OBTAINED

The students are able to identify more knowledge about industrial work. The pharmaceutical industrial visit is an essential component of pharmacy education, providing students with critical insights into the industry's operations, challenges, and innovations. This experience helps students to be better prepared for their future careers in the pharmaceutical field.
