Vision – "To serve with high quality education for development of students as competent pharmacy professionals for the upliftment of socio-economic status in rural areas"

2.3.1 Student centric methods

Teaching- Learning Process

The HSBPVT's GOI Faculty of Pharmacy envisions delivering high-quality education to develop competent pharmacy professionals, uplifting socio-economic standards in rural areas.

Experiential Learning:

The institute ensures practical exposure through well-maintained laboratories, industrial training, guest lectures, group discussions, and NSS activities. Students engage in hands-on experiences like industrial visits, research projects, and healthcare awareness programs (e.g., Hepatitis/AIDs awareness, blood donation camps). Final-year students undertake significant research projects, while M. Pharm students publish research in journals.

Participative Learning:

Students expand their knowledge through poster presentations, elocution contests, and professional activities. Events like workshops, rallies, and social gatherings foster engagement with society, including activities on Pharmacist Day, Cancer Day, and NSS camps.

ICT-Enabled Learning:

To enhance education quality, the institute employs ICT tools such as PowerPoint presentations, digital projectors, and video resources. Facilities include Wi-Fi, broadband, 60 computers, and a digital library. Advanced software like EXPHARM and Vmedulife support student learning. During COVID-19, platforms like Google Classroom and Zoom ensured uninterrupted education.

The Faculty of Pharmacy emphasizes innovative teaching, participative activities, and cutting-edge technology to create capable professionals ready to contribute effectively to society.

Certificate

OF EXPERIENCE

PROUDLY PRESENTED TO
Anarase Rutuja Dnyandev

I am Dr. Kawade Siddharth kishor Working as registered Pharmacist in Medicine point Medical. I here by declare that Miss .Anarase Rutuja Dnyandev has Successfully completed 1 Months training period as a trainee Pharmacist under my supervision from 04 July to 03 August , as per the norms of Maharashtra State Pharmacy Council. So I hereby give Miss.Anarase Rutuja Medical Experience Certificate.

!! Wish You All The Best For Bright Future !!

PRINCIPAL
 H.S.B.P.V.'S GROUP OF INSTITUTION'S
 Faculty of Pharmacy
 Kashi, Tal. Shrigonda, Dist. A-Nagar

• Aim: To prepare & submit 7-hydroxy 4-methyl coumarin from resorcinol by using green technique.

• Reference:

- 1) Medicinal chemistry practical book of Nirali prakashan by Dr. Abhishek Tiwari & by Dr. Rajeev kumar.
- 2) Practical book of medicinal chemistry by Ashutosh kaur.

• Requirements:

- 1) Apparatus: Round bottom flask, glass rod, water bath, filter paper.
- 2) chemicals: Ethyl acetoacetate, Resorcinol, Sulphuric acid

• Theory:

A general principle of coumarin involves the interaction of a phenol with a β -ketoester, in presence of an acid condensing agent. conc. Sulphuric acid is usually used as the condensing agent for simple monohydric phenols & β -ketoesterase although phenol itself reacts better in the presence of aluminium chloride.

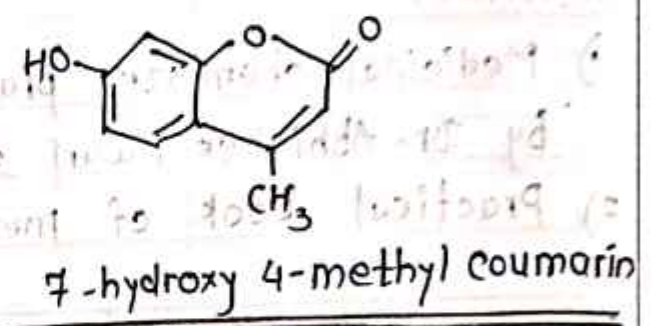

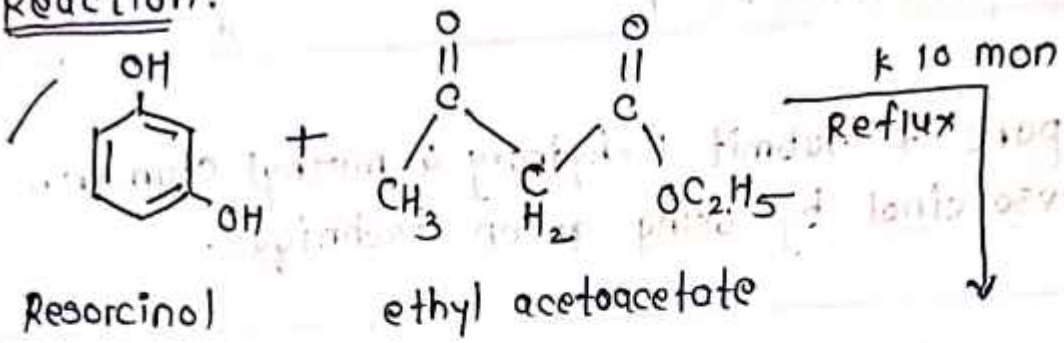

The mechanism of this reaction is to involve the initial formation of a β -hydroxy ester, which then cyclises & dehydrates to yield the coumarin

• Procedure:

- 1) Take 15 ml conc. H_2SO_4 in beaker & cool in ice water
- 2) In another beaker, Mix 1.3 gm of ethyl acetoacetate & 1.1 gm of resorcinol, cool the mixture at 5°C in ice water bath.

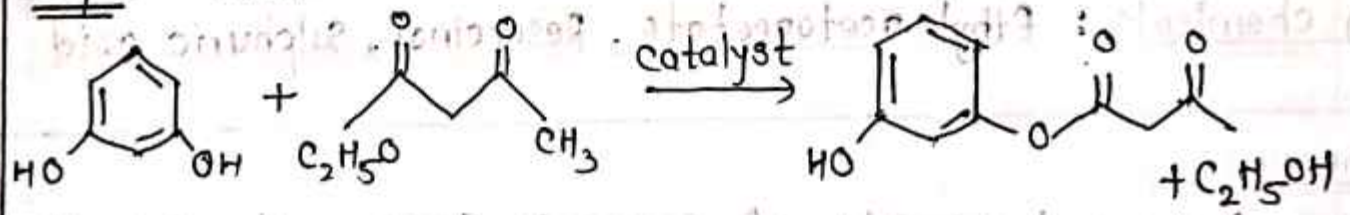

Reaction:

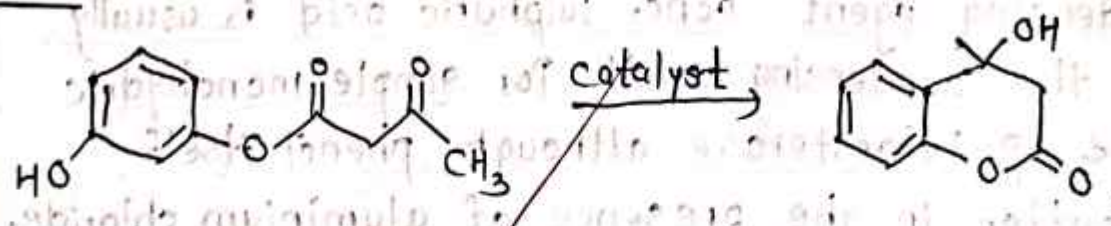

Reaction Mechanism:

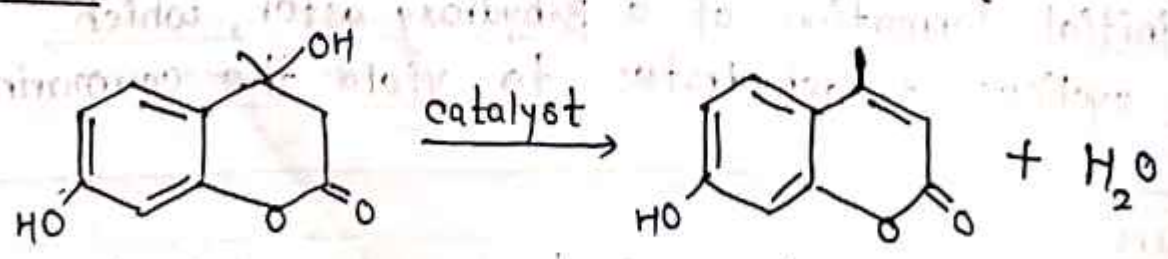

Step I: Transesterification

Step II: Intramolecular hydroxylation

Step III: Dehydration

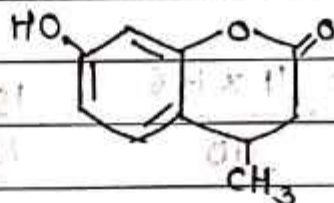

7-hydroxy-4-methyl coumarin

PRINCIPAL
H.S.B.P.V.T.'S GROUP OF INSTITUTIONS
Faculty of Pharmacy
Kashi, Tal-Shrigonda, Dist-A.Nagar

- 3) Mix the conc. solⁿ of conc. H₂SO₄ slowly with constant stirring in a mixture of resorcinol & ethyl acetoacetate maintain the temp of mixture below 10°C
- 4) Separate out the hydroxy-4-methyl coumarin by filtration technique
- 5) Record the % yield of melting point

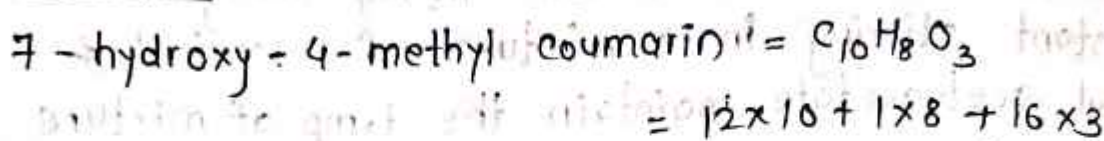

• Result :

Name	4-hydroxy-4-methyl coumarin
Structure	
Mol. formula	C ₁₀ H ₈ O ₃
Mol. weight	176 g/mol
Theoretical yield	1.76 g
Practical yield	1.75 gm
% P.Y	99%
Melting point	188 - 190°C

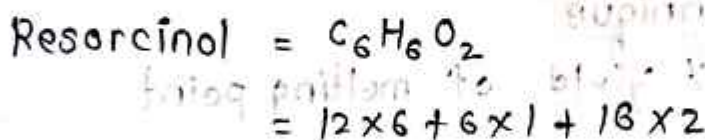

PRINCIPAL
 H.S.B.P.V.T'S GROUP OF INSTITUTIONS
 Faculty of Pharmacy
 Kashi, Tal-Shrigonda, Dist-A Nagar

Calculation:

mol.wt = 176 g/mol

mol.wt = 110 g/mol

i) Theoretical yield:

1.1 gm of resorcinol \cong x gm of coumarin

$x = \frac{1.1 \times 176}{110} = \frac{193.6}{110}$

$x = 1.76 \text{ g.}$

ii) Practical yield = 1.75 gm

iii) % practical yield = $\frac{P.Y}{T.Y} \times 100$

$= \frac{1.75}{1.76} \times 100$

$= 99 \times 100$

% P.Y = 99%

Title : Design a questionnaire using a word processing package to gather information about a particular disease.

Aim : To design a questionnaire using a word processing package to gather information about a particular disease.

Introduction :

What is a questionnaire?

→ A questionnaire is a research instrument consisting of a series of questions for the purpose of gathering information from respondents.

Question Sequence -

In general questions should flow logically from one to the next. To achieve the best response rates, questions should flow from the least sensitive to most sensitive from the more general to the more specific.

- 1) Screen
- 2) Warm-ups
- 3) Transition
- 4) Skips
- 5) Difficult
- 6) Classification.

- 1) Screen - Screens are used as a screening method to find out early whether or not someone should complete a questionnaire.
- 2) Warm-ups - Warm-ups are simple to answer, help capture interests in the survey, and may not even pertain to research objectives.
- 3) Transition - Transition questions are used to make different areas flow well together.
- 4) Skips - Skip include question similar to "If yes, then answer questions & if no, then continue to questions."
- 5) Difficult - Difficult questions are together at the end because respondent is in 'response mode' also, when completing an online questionnaire, the progress bar lets the respondent.
- 6) Classification - Classification or demographic question should be at the end because typically, they can feel like personal questions which will

make respondent uncomfortable and willing to finish survey.

• Basic rule for questionnaire item construction :

- Use statement which are interpreted in the same way by members of different subpopulations of the population interest.
- Use statement where person that there have different opinion or trait will give different answer.
- Think of having an open answer category after a list of possible answer.
- Use only one aspect of the construct you are interested in per item.
- Use +ve statement and avoid -ve or double negative
- Don't make assumption about the respondent
- Using correct spellings, grammar and question per item.

- questions should not to be based or even leading the participant toward on answer.

Result : The designing of questionnaire by using word processing package was studied.

Vision – "To serve with high quality education for development of students as competent pharmacy professionals for the upliftment of socio-economic status in rural areas"

Practice School Policy

1. Ongoing academic we conduct practice school activity as per SPPU recommendation in syllabus.
2. We distribute all the students in a group of seven and allotted faculty for their guidance in throughout semester.
3. When academic is start we give domain (Topic) to all teaching staff for selecting any one for practice school.
4. According to domains the work will be done and publish paper in UGC Journals is mandatory.
5. Along with the semester exam of SEM VII the report submitted by the students and skill acquired by students throughout the practices school.
6. Practice school shall be evaluated by the subject expert which we have appointed for evaluation at our college level and grade point shall be awarded.
7. At the end of practice school or after the evaluation by subject expert the students every students shall submit a printed report (In triplet) the report should not more than 25 pages.
8. Evaluation of marks distributaion is as per follows

Internal Marks – 25

External Marks – 125

Total Marks - 150

INDEX

Summary of student research project of Second Year M. Pharm. (MPH)

Sr. No.	Name of Student	Project Title	Name of Guide	Place of Work	Duration
1.	Doke Pratiksha Rohidas	A novel formulation development and evaluation of lumateperone immediate release tablet	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
2.	Gadakh Namrata Ramesh	Formulation and evaluation of flucanazole topical gel	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
3.	Gaikwad Prajwal balasaheb	Formulation and evaluation of immediate release tablets of linagliptin	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
4.	Ghadge Pratiksha Kalyan	Development of sunscreen, effectiveness and its rationale use.	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
5.	Jadhav Akshay Sitaram	Formulation and evaluation of floating microspheres of empagliflozin	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
6.	Kadam Krishna Sunil	Formulation and evaluation of gastroretentive floating tablets of lovastatin	Dr. Dhananjay A. Landge	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
7.	Kalaskar Kashmira Macchindra	Formulation and evaluation of voriconazole floating microsphere	Mr. Jaydeep B. Pawar	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
8.	Karnor Sonali Shrimant	Formulation and evaluation of risperidone oral film	Mr. Jaydeep B. Pawar	HSBPVT's, GOI Faculty of Pharmacy, Kashti.	1 Year
