INSTITUTE'S NEP 2020 PERCEPTION

Our institute wishes to achieve autonomy so that it can effectively implement NEP recommendations & launch multidisciplinary programs & interdisciplinary research. As a part of holistic education, our institute organized value-based and skill development programs for developing universal human values and skills in students. We motivated our students to participate in physical fitness activities like various sports and yoga. Students also participate in community outreach programs like health awareness rallies & street plays, blood donation drives, and national immunization programs. Students undertake interdisciplinary research projects as a part of implementation of NEP.

University Grants Commission, New Delhi had issued instruction to The University for the Implementation of Academic bank of credits on 16th August, 2022. Our institute is approved by Pharmacy Council of India, New Delhi and affiliated to Savitribai Phule Pune University, Pune. Our University has implemented ABC from 15th October, 2022. The institute has implemented ABC as per University guidelines for credit transfer or consideration. The students were received assistance in this regard from both the examination section and their respective Mentors.

The National Education Policy (NEP) 2020 has given special emphasis on vocational education through integration and mainstreaming of vocational education with general education which will help students in acquiring various skills to meet the needs of the industries and to improve the quality of education. Skill development helps build a strong foundation for students at the college level. It helps build self-esteem, confidence, and

leadership skills. It develops problem-solving skills and collaboration. It helps students become independent thinkers and encourages them to plan for their future.

Value education adopted through co-curricular and extracurricular activities, college is focusing on the development of students by providing different approaches to student such as societal and environmental awareness. Extra-curricular activity along with NSS unit actively participated in social activities. NSS organize different activity such as NSS camp for 7 day in adopted village, awareness rally's, blood donation and health check camp. This helps to improve communication and leadership skill among the students along with increased bonding towards society.

Our students participate in various competitions such as essay writing competitions, poster presentation competitions, quiz, and debates, rangoli competitions. We celebrate environmental day, Alzimers day, Savitribai Phule birth anniversary, Chatrapati Shivaji Maharaj birth anniversary, Dr. Babashaheb Ambedkar birth anniversary etc, to inculcate universal values within the students.

Institute organizes different guest lecture series for students from various sector such as industrial, academic, entrepreneurs and our college alumni students for skill and knowledge improvement of students and nurturing their start up and entrepreneurship abilities. College offer certificate programme other than academic in Pharmacovigilance in blended mode by associating with our industry partners Elite Pharma. College has taken initiative to register students on NPTEL and Coursera to attend online certificate courses in future. College done various MOU with different pharma industries and foreign University such as Malahayati University, Indonesia, Pote Maharaj Ayurvedalaya, Saffron Pharma Pvt

Ltd, Bora Pharma Pvt Ltd etc., to improve knowledge and practical skills. We provide soft skill and communication skills trainings, various Add-on Certificate Courses, Hands-on Training workshops, Entrepreneurship skills development programs for knowledge upliftment of students.

Our institute is running pharmacy program as per the regulations of Pharmacy Council of India for upliftment of socio-economic status in rural area. Pharmacy, a century old science and practice, has its roots in the traditional system of medicines such as Ayurveda, Yoga, Unani, Siddha and Homeopathy (AYUSH). These traditional systems of medicines are very well taught under Pharmacognosy and Phytochemistry course in the institute. Officially the content of delivery of course is in English as per statutory requirements, on the demand of students, the bilingual mode like English, Marathi or Hindi is used in the classroom for better understanding of the Indian traditional knowledge and to make the students understand the concepts. We believe there is a strong need to revive our ancient or tribal knowledge of medicines among the modern learners and achieve the goal of NEP 2020.

Institute always trying to imbibe traditional knowledge among the students by the way of designing of the herbal research projects, creating awareness of medicinal use of herbs through guest lectures, cultivation and conservation of medicinal plants throughout the year. Institute has well developed medicinal plant garden where plants are encoded with QR code so that students can explore their Ethnopharmacological knowledge as and when required.

Outcome-Based Education (OBE) focuses on student-centered approaches to teaching. According to the OBE system. All students are required to reach a certain level of

proficiency at the end of the course and thus achieves a certain level of success in a course. Our institute has been implementing outcome-based Education since the 2019-20 academic year. The organization uses program outcomes (PO) as defined by National Board of Accreditation (NBA) and accordingly CO and PO are defined as per University syllabus. The terms used to describe CO's are based on Bloom's taxonomy. Blooms taxonomy is designed to encourage different types of thinking in learning such as analysis, evaluation, and design rather than making facts as traditional leaning. There are 6 CO's for each course. PO and CO for all courses offered by the institute are published on the website in detail. The CO are prepared by the course in charge in consultation with HOD. CO-PO mapping is done at level 1 (low), 2 (medium), 3 (high) or – (no corelation) and all stakeholders are made aware of this by posting it on website. In addition, all teachers will inform students about CO at the start of the teaching. Attainment level is determined by the course administrator in consultation with HOD based on the difficulty of the course.

Pharmacy is a field that requires extensive hands-on training and practical experience. Pharmacy programs require in-person education for comprehensive learning and skill development. The hands-on training, practical experience, interpersonal skills development, collaborative learning, and exposure to ethical and professional standards provided by in-person education are indispensable for future pharmacists, so distance education is not recommended. If the Pharmacy council of India or University approves any such module for Pharmacy, we are ready to launch the same.

Online education has transformed the traditional classroom into a dynamic and inclusive learning environment. Our college organises online guest lectures by various pharmaceutical industry experts for upgrading student knowledge. Online guest lectures

have emerged as a valuable tool for enhancing collaboration between the pharmaceutical industry and academia. By bridging the industry-academia gap, providing practical insights, facilitating networking opportunities, fostering collaborative research, and offering flexibility and global reach, online guest lectures create a symbiotic relationship that benefits both parties. Online guest lectures by pharmaceutical industry experts provide students with a unique opportunity to learn from experienced professionals, gain industry-relevant knowledge, receive career guidance, and build professional connections. These lectures offer invaluable insights into the pharmaceutical field beyond the confines of traditional classroom education. By embracing online guest lectures, students can acquire the skills, knowledge, and perspectives necessary to excel in the pharmaceutical industry and contribute to the advancement of healthcare.
