Pharm) like personal and educational information, monthly attendance, end semester and competitive examination, mentor-mentee and mentor-parent interaction, participation in co- and extra-curricular activities, leave record etc.

The mentor meets his or her mentees to fulfill their individual needs viz. course work and laboratory specific queries. Mentors analyze, direct them in the right way and guide them to utilize the resources available to clarify the doubts. Faculty conducts at least 2 meetings per semester to address doubts and for overall guidance to the students.

Following mentioned features are focused by the mentor,

5. Evidence of Success

MMS works right from the start of the Semester 1 to 8 for efficient implementation of policies. Students are mentored on a regular basis and after a few sessions, a good relationship is formed with the mentor. As expected, this turns students into full-fledged professionals. Students did better in college, including in-person classes, presentations, projects, and publications. There are less than 20 mentees, allowing faculty to interact with students regularly and effectively. Mentors also learn the daily needs encountered with young minds and experienced professional improvement of the students through this system. Following quantitative data mentioned in the figure 1-5 are self-explanatory as evidence of success of the implementation of MMS in the institute,

An act of humanity for imparting meaningful life!

Background

Shrigonda is a taluka located in the Southern part of Ahmednagar district. It has been blessed with a great historical heritage. Many warriors viz. MalojiRaje, Mahaji Shinde have resided in this city. However, this city is plagued by certain social concerns. Shrigonda is a shelter to many scheduled tribes, particularly the PhasayParthi and Dombari tribes. Mahamanav Baba Amte Bahuuddeshiya Samajik Vikas Seva Sanstha was established on July 23, 2008 to address these concerns. The NGO strives to educate the children of these tribes, rehabilitate them and integrate them with society by creating social awareness.

Our first Patron:

Shrigonda Bhushan Neelkamthi Sadashiv Kulkarni hails from Shrigonda. However, he left for Mumbai six years ago to seek employment and has settled there ever since. He has very generously donated his ancestral home in Shrigonda, the 'Kulkarni Wada' to our NGO as his family's contribution to the upliftment of the deprived and poor.

Projects of Mahamanav Baba Amte Sewa Sanstha

- 1) **Students Aid Committee (Vidyarthi Sahayak Samiti)**
The Phase Paradihcommunity are an ancient tribe of India. They used to live in remote and inaccessible jungles and were very primitive in their lifestyle. They used hunt in the jungles for their food. But when the British rulers implemented a ban on hunting in the jungles, this tribe was unable to integrate with the rural population. As a result they resorted to criminal activities to feed their families. For generations, they have been involved in criminal activities and never been to any school. At times, they are unfairly blamed for crimes they have not committed. Mahamanav Baba AmteSevaSanstha has taken up the noble cause of uplifting this community. We have taken the responsibility of educating the children and stop the vicious cycle of crime and give them a chance to life. We provide hostel facility, admission to local school, regular and nutritious meals, tuitions and most importantly inculcate values in the children. Along with academics, we teach the children to share and care for each other. We inculcate discipline and the importance of honesty and hard work. It is a fact that had it not been for Mahamanav Baba Amte Sewa Sanstha's intervention, these children too would have been labeled as criminals.

We all can say that Mahamanav Baba AmteSevas guiding the children of the Phase Paradih community towards a bright future by educating them and at the same time reducing the crime rate of our country.

- 1) **Sadhana Balbhavan**
Shreegonda is a taluka and Sasane Nagar slum which houses over 1,500 residents is a part of this taluka. The women of these slums engage in occupations such as labourers on farm or domestic work. They are illiterate labourers and are unable to guide their children with their studies. Mahamanav Baba Amte Bahuuddeshiya Samajik Vikas Seva Sanstha started the Sadhana Balbhavan project to help the children of these slums with their studies and to mould these children into respectable citizens. Free tuitions are given to these children and workshops on health and hygiene, de-addiction, communal unity, prevention of underage marriages, dowry, etc are conducted by various experts to bring about a positive change in the society. Thus Sadhana Balbhavan is a movement towards profoundness and nation building. Currently 80 kids are marching towards a bright future at Sadhana Balbhavan.
- 1) **Aarambh Bal VidyaNiketan**
This is a unique project where youth of a village named Kashti are engaged in nation building by educating the children of the poor/neglected sections and the Dombani community while building their own future at the same time. They are doing this out of a sense of patriotism and the urge to share their knowledge with the needy, poor and deprived section of our society. If these underprivileged children are not educated today, then they will be exploited as child labourers, beggars or resort to crime for their livelihood, thus proving to be a menace to society. The need is to educate these children and change their mindset and guide them towards a bright future. This positive change is being brought about through the medium of AarambhBalbhavan in the colony of the Dombani community of the Kashti village. This colony houses about 450 families living in very poor conditions. This underdeveloped tribal community lives a nomadic life, performing their traditional art and moves around from village to village. The youth of the Kashti village are performing the Herculean task of changing the destiny of 480 children living in such dire conditions.

- 4) **Mahamanav Baba Amte awareness lecture series.** Inspired by internationally renowned social activist Baba Amte, his wife Reverend Sadhmatil Amte, Tribune Annasaheb Hazare and the Snehalaya family, Mahamanav Baba Amte Bahuuddeshiya Samajik Vikas Seva Sanstha organizes lecture series on the occasion of the death anniversary of Baba Amte and the birth anniversary of Saint Gadge Maharaj. Prominent speakers and leaders are invited to create awareness amongst the masses about various social issues. The NGO feels that the youth today needs to be guided by inspiring thoughts along with academics in order to broaden their horizons. Hence the lecture series!! Thousands of youth from many rural areas are influenced by this initiative of the NGO towards a better future.
- 5) **Freedom Fighter Ramanlal Mehta Library**
Mahamanav Baba Amte Bahuuddeshiya Samajik Vikas Seva Sanstha provides library service to needy students and other citizens of Shrigonda taluka. The library also serves as a centre of study for various competitive exams viz. MPSC, UPSC, IPS, etc. The youth of Shreegonda taluka are inclined to applying for government jobs. The team of Mahamanav Baba Amte Sanstha started the Freedom Fighter Ramanlal Mehta Library to fulfill this need and help the youth get good government jobs. The library has over 5000 books and is visited by 125 students. Workshops are also conducted by experts to guide and prepare the youth for various competitive exams.
- 6) **Bharat Ratna Dr. A.P.J Abdul Kalam Study Center**
There was a need in Shrigonda for a center with an environment conducive for knowledge gaining where students could come to study and prepare for various competitive exams as well as overall personality development. The Bharat Ratna Dr. A.P.J Abdul Kalam Study Center was thus inaugurated at Shrigonda by Hon. Anna Hazare and Dr. Ravindra Kolhe on 26th Dec 2016 on the occasion of the birth anniversary of internationally renowned social activist Baba Amte. Currently 52 students visit the center every day to study.

Vision – 'To serve with high quality education for development of students as competent pharmacy professionals for the upliftment of socio-economic status in rural areas'

- Low or non-education of the community or society makes them vulnerable to misbelief and antisocial practices like addiction, theft, dacoti etc.
- Due to the availability of poor or low-level health facilities to them, the prevention of diseases or maintainence of health will be the biggest challenge.
- Generation of the motivation to the local health care provider and public for contribution towards such community is difficult task.
